PROFILE

Creative and detail-oriented Front-End Developer with a strong passion for crafting intuitive, responsive, and visually engaging user interfaces. Skilled in modern web technologies and frameworks, with a proven ability to translate ideas into seamless user experiences. A proactive learner and collaborative team player, always exploring innovative solutions to enhance performance and design. Driven to stay ahead of emerging trends and deliver impactful, user-focused digital products.

EXPERIENCE

Nona Studio Startup

Frontend Developer | January 2024 - until now

Front-End Developer – Building the logistics platform UI with **React, TypeScript, Tailwind CSS, Redux, Zustand, and React Query**. Collaborating cross-functionally with backend and design teams to integrate C# .NET REST APIs, delivering responsive dashboards, real-time tracking, and dynamic forms. Leveraging strong teamwork, **problem-solving, and communication skills** to create a scalable, API-driven system that improves efficiency, accuracy, and user experience.

Fanavaran Sepehr Fardad

Frontend Developer | August 2022 -January 2024

Front-End Developer – Built the CRM platform UI with **React, TypeScript, and Tailwind CSS**. Developed dashboards, dynamic forms, and role-based modules, integrating with C# .NET Core REST APIs. Focused on UI **performance, responsiveness, and scalability**, improving workflows, data accuracy, and cross-department collaboration.

PoyandeganRahSaadatco

Frontend Developer | April 2020 - August 2022

Front-End Developer – Developed and maintained the UI for an internal C# MVC web application to support after-sales service, CRM, training, and invoicing. Built responsive forms, dashboards, and reports with **JavaScript, HTML, CSS, and Bootstrap**. **Collaborated with backend team** for API integration and data validation, streamlining workflows and improving reporting accuracy.
